Verneta -

I didn't have any comments *per se*. However, in reading it I did feel a little like we were left out of discussions between BP and OCC (reference to BP's message to OCC on page 4 of SCAT report) regarding clean up of globules and closing out the clean up actions and issuing the draft final report. Since there wasn't much oil left on the rocks, it's not an issue we need to bring up, but I will keep this in mind for future SCATTING efforts in terms of assuring the SCAT team functions in a unified manner.

Thanks for taking the lead for our efforts on this.

U.S. EPA has one comment --- Would it be possible to include a definition for NOO? Thanks, Verneta
